SALES AND
PROFITABILITY

Introducing Lease-Desk Version 2.0

As we are constantly striving to improve the usability and functionality of Lease-Desk for our users, we are proud to announce the official launch of Lease-Desk Version 2.0.

System Administration:

Lease-Desk Version 2.0 provides new improved functionality, resulting in easier, speedier access to your Live Portfolio information.

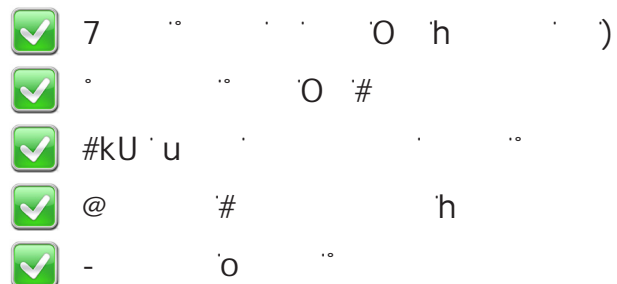

The cascading hierarchies created within Lease-Desk's Groups page are now easily accessible via the Users and Companies screens, making amendments a quick, simple process.

Agreements:

Viewing notes within agreements has never been easier due to the new summarise notes option, providing instant visibility of all details logged against an agreement.

Any updates logged against an individual agreement are now automatically emailed to all authorised users, providing an enhanced and up to date communication process, both internally and externally.

In addition, Version 2.0 now provides users with access to Customer or Financial Providers contact information via the agreement screen, creating a CRM type functionality, helping to improve communication throughout your business.
